MANUFACTURERS' WARRANTIES:

We will use our reasonable endeavours to assist you to obtain the benefit of any guarantee or warranty offered by the original manufacturer or supplier of any goods that we supply you. This provision does not require us to commence legal proceedings or incur legal costs. We will make certain endeavours to ensure that goods supplied by us are sourced from reputable and qualified manufacturers, by making preliminary enquiries about suppliers and by making preliminary checks. It is not practicable to test individual items for compliance or quality prior to supply.

SITE WORKS AND SERVICE:

The client acknowledges that except as provided by law, this agreement does not entitle you to demand to receive from us any site inspection or service of the goods supplied, delivered and installed if applicable. If you do require our services in respect of site inspection and service of the goods, the subject of this agreement, then you should enter into one of our Service Maintenance Contracts.

GOVERNMENT AND AUTHORITIES APPROVAL:

Our quotation makes no allowances for building or development applications or fees to Government Authorities or relevant approvals for use required by Local Council or Government Codes. It is solely the client's responsibility for such approvals of the goods and the subsequent installation or use.
